The wholesalers, HDMA, will be attending the luncheon. Let's see where it goes, and I will see if I can get the question asked.

Hello Burt:

We should ask her about Suspicious Order Monitoring and specifically how wholesalers can be tasked by DEA with evaluating the legitimacy of prescriptions written for pain patients.

How does DEA suggest this be done by industry, in light of Hipaa Laws and regulations?

Jack

fyi, I have asked her to talk for 20 to 30 min and take questions. The call in # is in the attached agenda. Feel free to call in if you like. She will be first up about 12 or 12:15 after people arrive and grab a sandwich.

I look forward to seeing you all on Thursday. Mark and I have not had much chance to talk about this since I have been out of the office on travel. Is this an hour talk and are you looking for specific issues? I can talk about the Diversion Control Program, its mission, the CSA and regulations and issues specific to physicians - multiple Rx, diversion of controlled substances and Data-waived requirements. Just some ideas.
